TO WHOSOEVER IT MAY CONCERN

This is to state that L&T acquired a SMART CL-1 apparatus to its laboratory equipment in August 2007 purchasing it from Construction Research Technologies.

Since then we have been using it for testing chloride ion permeability of concrete for the Delhi Metro project. The equipment has been performing well to our satisfaction. We have not faced any problem in the apparatus so far.

Thanking you,

For Larsen & Toubro Limited
ECC Division
